Capitala Finance Corp. Reports First Quarter 2019 Results

CHARLOTTE, NC, May 6, 2019--Capitala Finance Corp. (Nasdaq:CPTA) ("Capitala", the "Company", "we", "us", or "our") today announced its financial results for the first quarter of 2019.

First Quarter Highlights

- Net investment income of \$4.1 million, or \$0.26 per share
- Net asset value per share of \$11.61 at March 31, 2019, compared to \$11.88 at December 31, 2018
- Deployed \$21.1 million during the quarter, consisting of \$15.0 million in two new portfolio companies, and \$6.1 million in add-on investments. The weighted average yield on debt investments to new portfolio companies, all first lien structures, was 11.1%.

Management Commentary

In describing the Company's first quarter activities, Joseph B. Alala, III, Chairman and Chief Executive Officer, stated, "Net investment income exceeded distributions for the quarter, while NAV per share declined slightly since year-end. We continue to focus on rebalancing our investment portfolio and are pursuing senior secured debt loans instead of mezzanine loans. We are also seeking to shrink and monetize our portfolio of equity securities and rotate the cash proceeds into yielding loans. Our direct origination platform continues to see quality investment opportunities that are suitable for our investment strategy."

First Quarter 2019 Financial Results

During the first quarter of 2019, the Company originated \$21.1 million of new investments, and received \$11.5 million of repayments. Debt investments totaled \$20.0 million, \$14.1 million to two new portfolio companies, and \$5.9 million to existing portfolio companies. In addition, we invested \$1.1 million in equity securities.

Total investment income was \$12.7 million for the first quarter of 2019, compared to \$12.6 million in the first quarter of 2018. During the first quarter of 2019, the Company recognized dividend income of \$1.3 million related to a distribution from our equity investment in Nth Degree, Inc.

Total expenses for the first quarter of 2019 were \$8.5 million, compared to \$8.1 million for the comparable period in 2019. Contributing to the \$0.4 million increase was (1) a \$0.8 million increase in incentive fees, (2) a \$0.2 million decrease in base management fees and (3) a \$0.2 million decrease in general and administrative expenses.

Net investment income for the first quarter of 2019 was \$4.1 million, or \$0.26 per share, compared to \$4.4 million, or \$0.28 per share, for the same period in 2018.

Net realized losses totaled \$5.8 million, or \$0.36 per share, for the first quarter of 2019, compared to net realized losses of \$3.9 million, or \$0.24 per share, for the same period in 2018. During the first quarter of 2019, the Company realized losses related to Velum Global Credit Management, LLC, (\$8.9 million), CableOrganizer Acquisition, LLC (\$1.8 million), and Cedar Electronics Holding Corp. (\$1.0 million), partially offset by a \$5.9 million gain related to B&W Quality Growers, LLC. Net realized losses during the first quarter of 2019 did not have a material impact on net asset value per share, as the realized amounts were in line with our previously reported fair values.

Net unrealized appreciation totaled \$1.5 million, or \$0.09 per share, for the first quarter of 2019, compared to depreciation of \$0.4 million for the first quarter of 2018.

The net decrease in net assets resulting from operations was \$0.2 million for the first quarter of 2019, or \$0.01 per share, compared to a net increase of \$0.1 million, or \$0.01 per share, for the same period in 2018.

Investment Portfolio

As of March 31, 2019, our portfolio consisted of 43 companies with a fair market value of \$455.4 million and a cost basis of \$424.9 million. First lien debt investments represented 53.0% of the portfolio, second lien and subordinated debt investments collectively represented 23.4% of the portfolio, equity/warrant investments represented 20.5% of the portfolio, and our investment in Capitala Senior Loan Fund II, LLC represented 3.1% of the portfolio, based on fair values at March 31, 2019. The weighted average yield on our debt portfolio was 12.1% at March 31, 2019.

At March 31, 2019, non-accrual balances totaled \$8.9 million and \$6.5 million, on a cost basis and fair value basis, respectively. Non-accrual loans, on a cost basis and fair value basis, represented 2.1% and 1.4%, respectively, of the portfolio at March 31, 2019, compared to 4.9% and 2.1%, respectively, at December 31, 2018.
