Management Commentary

In describing the Company's fourth quarter activities, Joseph B. Alala, III, President and Chief Executive Officer, stated, "My team and I are pleased to report solid fourth quarter results, which is our second reporting quarter following our IPO on September 30, 2013. Our fourth quarter 2013 net investment income of \$0.47 per share covers our \$0.47 per share dividend, which was paid on December 30, 2013. We are very pleased that the first two quarters following the IPO that we have covered our stated dividend from actual earnings. My team and I are committed to further enhancing our operations and we hired several senior and talented partners during the fourth quarter of 2013. Moreover, we continue to actively seek additional talented professionals to add to our team, notwithstanding our management fee waiver on the IPO proceeds until such proceeds are invested. As part of the IPO process, the manager further aligned its interests with the public shareholders by agreeing to a reduction in its base management fee to 1.75% from a higher rate previously charged on private funds, and the manager bearing 100% of the IPO underwriting discounts and commissions through a reduction in the number of shares of the Company that management received for its interest in the legacy funds. We are excited to have experienced two solid reporting quarters as a publicly traded specialty finance corp. and we expect to continue to build on our 15 year track record and will seek to provide our shareholders with an attractive risk-adjusted return."

Formation Transactions

The Company was formed for the purpose of (i) acquiring, through a series of transactions, an investment portfolio from the following entities: CapitalSouth Partners Fund I Limited Partnership ("Fund I"); CapitalSouth Partners Fund II Limited Partnership ("Fund II"); CapitalSouth Partners Fund III, L.P. ("Fund III") and CapitalSouth Partners Florida Sidecar Fund I, L.P. ("Florida Sidecar" and, collectively with Fund I, Fund II, Fund III Parent, the "Legacy Funds"); (ii) raising capital in the IPO and (iii) continuing and expanding the business of the Legacy Funds by making additional debt and equity investments in smaller and lower middle market companies.

On September 24, 2013, the Company acquired 100% of the limited partnership interests in Fund II, Fund III and Florida Sidecar and each of their respective general partners, as well as certain assets from Fund I and Fund III Parent, in exchange for an aggregate of 8,974,420 shares of the Company's common stock (the "Formation Transactions"). Fund II, Fund III and Florida Sidecar became the Fund's wholly-owned subsidiaries. Fund II and Fund III retained their SBIC licenses, continue to hold their existing investments and continue to make new investments. The Formation Transactions related to Fund II, Fund III, and the Florida Sidecar constitute an exchange of shares between entities under common control and will be accounted for in accordance with ASC 805, Business Combinations. As such, the Company's results of operations for the three and twelve month periods ended December 31, 2013 are presented as if the aforementioned transactions had occurred as of January 1, 2013. In addition, the results of the Company's operations for the three and twelve month periods ended December 31, 2012 and the Company's financial position as of December 31, 2012 have been presented on a combined basis in order to provide comparative information with respect to prior periods. The Formation Transactions also included an asset acquisition of certain assets in Fund I and Fund III Parent. In accordance with ASC 805, Business Combinations, the assets acquired are recorded at fair value at the date of acquisition, September 24, 2013.

The Company's financial position as of December 31, 2013 is presented on a consolidated basis. The effects of all intercompany transactions between the Company and its subsidiaries (Fund II, Fund III, and the Florida Sidecar) have been eliminated in consolidation.

Fourth Quarter 2013 Financial Results

During the fourth quarter of 2013, the Company originated \$35.1 million of new investments (2 new companies and 4 existing). In addition, the Company received \$2.0 million from investment exits, generating \$89 thousand in realized losses, partially offset by \$41 thousand in recognized gains from insurance proceeds from an investment exit in the third quarter of 2013.

Total investment income was \$12.1 million for the fourth quarter of 2013, compared to \$7.0 million for the same period in 2012. Net investment income for the three months ended December 31, 2013 was \$6.1 million, compared to \$3.9 million for the same period in 2012. Increases in total investment income and net investment income are attributed to growth in total investments, and \$3.4 million of dividend income in 2013.

Total expenses for the quarter ended December 31, 2013 were \$6.0 million, compared to \$3.1 million for the comparable period in 2012. The increase is primarily attributed to an incentive fee of \$1.5 million in 2013, along with certain allocated and direct expenses in the first full quarter of operations for the company, totaling \$925 thousand.

Total realized gains (losses) totaled (\$48 thousand) for the quarter ended December 31, 2013, compared to \$1.1 million for the same period in 2012. The net change in unrealized appreciation for the fourth quarter of 2013 was \$745 thousand, down from \$13.7 million for the same period in 2012. The fourth quarter of 2012 included significant appreciation related to two equity investments.

Net increase in net assets resulting from operations was \$6.8 million for the quarter ended December 31, 2013, compared to \$18.7 million in the same period in 2012. On a per share basis, the net increase in net assets resulting from operations was \$0.52 for the quarter ended December 31, 2013, and is not comparable to the same period in 2012.

Net assets at December 31, 2013 were \$268.7 million, or \$20.71 per share, compared to \$20.79 per share at September 30, 2013. Comparisons to prior periods are not meaningful as a result of the Formation Transaction described in the Company's Form 10-K be filed on March 11, 2014.

Full Year 2013 Financial Results

During 2013, the Company originated \$110.9 million of new investments, compared to \$56.5 million during 2012. In addition, the Company received \$52.7 million from investment exits in 2013, and \$23.7 million in the prior year. Net investments were \$58.2 million in 2013, a 77.4% increase over the net investments of \$32.8 million in 2012.

Total investment income was \$35.4 million for the year ended December 31, 2013, compared to \$24.9 million for the same period in 2012. Net investment income for the year ended December 31, 2013 was \$19.5 million, compared to \$12.9 million for the same period in 2012. Increases in total investment income and net investment income are attributed to growth in total investments as well as higher levels of dividend income in 2013 related to control investments.

Total expenses for the year ended December 31, 2013 were \$15.9 million, \$3.9 million higher than 2012. The increase is primarily related to incentive fees of \$1.5 million in 2013, as well as certain allocated and direct costs incurred by the Company during its first full year of operations.

Total realized gains totaled \$2.2 million for the year ended December 31, 2013, compared to \$1.6 million for the same period in 2012. The net change in unrealized appreciation of investments was \$7.2 million for 2013, down from \$35.1 million in 2012. Significant equity appreciation related to two investments in 2012 accounted for the majority of the decrease.

Net increase in net assets resulting from operations was \$28.9 million for the year ended December 31, 2013, compared to \$49.6 million in the same period in 2012. On a per share basis, the net increase in net assets resulting from operations was \$2.22 for the year ended December 31, 2013, and is not comparable to the same period in 2012.
